STATEMENT OF FACTS

Your Honor,

On Thursday, November 7th, 2024 at approximately 0754 hours I was patrolling stationary on North Street near Water Street in the City of Springfield. I was patrolling in a fully marked patrol car wearing the uniform of the day when I observed a black spraypainted motorcycle traveling westbound on North Street that did not have a displayed registration plate. I pulled behind the motorcycle to conduct a traffic stop. The motorcycle pulled into a parking lot before coming to a stop. The driver, later identified as Kevin Buck, was advised the reasoning for the stop and he stated that he "just got the bike." Buck had a strong odor of burnt marijuana emitting from his person and his eyes were bloodshot and watery. Buck's voice was raspy and his speech was slow. I asked Buck for his identification and he stated he did not have it. When asked, Buck stated that he did not have a license. I asked Buck when the last time he smoked marijuana was and he stated "right before I left." I had Buck walk back to my car to perform Standardized Field Sobriety Tests.

The first test I administered was the Horizontal Gaze Nystagmus test. I asked Buck if he takes any medication and he stated no. I asked Buck if he wears glasses or contacts and he stated no. I asked Buck if he had any injuries or physical limitations and he stated no. Buck's eyes tracked equally and his pupils were equal in size. Resting Nystagmus was not present. No clues were observed during this test. However, Buck had to be reminded to keep his head still during the test and follow my stimulus with just his eyes.

The second test I administered was the Modified Romberg. I explained the test to Buck and he stated he understood. Buck completed the 30 second test in approximately 33 seconds. During the test, Buck had eyelid tremors and had a sway about his person.

The third test I administered was the Walk and Turn. I demonstrated and explained the test to Buck and he stated that he understood and had no questions. While in the instruction position, Buck moved his feet to keep his balance. During the test Buck showed the following clues: raised arms, steps off line, improper turn. During the test Buck showed four (4) of eight (8) clues.

The fourth test I administered was the One Leg Stand. I explained and demonstrated the test to Buck and he stated he understood the test and had no questions. During the test Buck showed the following clues: Raises arms, sway, puts foot down. During the test Buck showed three (3) of four (4) clues during the test.

The fifth test I administered was the Lack of Convergence test. I demonstrated and explained the test to Buck and he stated he understood and had no questions. During the test Buck's eyes began to converge and bounced outwards.

I placed Buck under arrest for OVI and advised him of his Constitutional Rights and he stated he understood. A search of Buck's person was conducted and a baggie with a crystal rock like substance was located, as well as 3 syringes and a metallic lip with residue. When asked what the substance was, Buck stated "meth." All items were located in Buck's front left jeans pocket. Buck was placed in the rear of my patrol car and the motorcycle was towed from the scene. Buck was transported to the Springfield Post and read the BMV2255 which was witnessed by Dispatch Supervisor Hack. I requested a urine sample from Buck and he refused. Buck was released from the patrol post to a friend via HP-60. Buck was issued a citation for OVI, Driving under suspension and Display of registration. Buck was issued a criminal citation for possession of meth and drug abuse instruments. The meth, needles and cap with residue was sent to the OSP Crime Lab.
